

COURSE OUTLINE – (FT05-03) EFORMS

Overview

This course provides attendees with an overview of eforms and where they fit into the applications. We will look at how they are accommodated in the data model. Finally we will develop some eforms to see their potential and practicality.

Objectives

To allow the attendees to be able to develop customised eforms with business logic.

Who should attend?

Java developers involved in the technical development of the FINEOS Solution

Pre-requisites

Attendees should have a working understanding of java and java script.

Formats & Duration

Training Format	Description	Maximum number of attendees	Duration
Classroom	An instructor-led session combining a blended learning approach of theory, hands on exercises and knowledge checks	6	3/4 Day
