

COURSE OUTLINE – (FT05-06) ROUTING RULES

Overview

Attendees will be taken through the configuration and set up of routing rules and their association with workflow. We will then develop custom routing rules accessing the data model and applying some business logic.

Objectives

To allow the attendees to be able to develop customised routing rules and configure them into workflow.

Who should attend?

Java developers involved in the technical development of the FINEOS Solution

Pre-requisites

Attendees should have a working understanding of java.

Formats & Duration

Training Format	Description	Maximum number of attendees	Duration
Classroom	An instructor-led session combining a blended learning approach of theory, hands on exercises and knowledge checks	6	One Half Day
