The Board will also review this Charter and the Risk Management Policy periodically.

The Company Secretary will communicate any amendments to employees as appropriate.

## **Schedule 1 - Independence as defined by the ASX Corporate Governance Council in their Corporate Governance Principles and Recommendations (4th edition)**

A director of a listed entity should only be characterised and described as an independent director if he or she is free of any interest, position or relationship that might influence, or reasonably be perceived to influence, in a material respect their capacity to bring an independent judgement to bear on issues before the board and to act in the best interests of the entity as a whole rather than in the interests of an individual security holder or other party.

The ASX Corporate Governance Principles and Recommendations (4th edition) provide certain examples for assessing the independence of directors and outline relationships which may affect independent status. They provide that when determining the independent status of a director the board should consider whether the director:

1. is, or has been, employed in an executive capacity by the entity or any of its child entities and there has not been a period of at least three years between ceasing such employment and serving on the board;
2. receives performance-based remuneration (including options or performance rights) from, or participates in an employee incentive scheme of, the entity;
3. is, or has been within the last three years, in a material business relationship (eg as a supplier, professional adviser, consultant or customer) with the entity or any of its child entities, or is an officer of, or otherwise associated with, someone with such a relationship;
4. is, represents, or is or has been within the last three years an officer or employee of, or professional adviser to, a substantial holder;
5. has close personal ties with any person who falls within any of the categories described above; or
6. has been a director of the entity for such a period that their independence from management and substantial holders may have been compromised.

Where a director falls within one or more of these examples, the board should rule the director not to be independent unless it is clear that the interest, position or relationship in question is not material and will not interfere with the director's capacity to bring an independent judgement to bear on issues before the board and to act in the best interests of the entity as a whole rather than in the interests of an individual security holder or other party.
