

COURSE OUTLINE – (FTT-CII-003)

FINEOS CUSTOMISATION II – EFORMS

About This Course

The FINEOS EForm is an electronic form that is used to extend the data capture functionality of the FINEOS application. This course gives an overview of the EForm configuration and examines the relevant data model, the FINEOS EForm Tag Library used by EForm jsps and the storage of the captured EForm data.

Course Objectives

To provide attendees with practical knowledge on creating and enhancing EForm jsps as well as an understanding of how EForm data is stored.

Who Should Attend?

Java developers involved in the technical development of the FINEOS Solution

Pre-requisites

Skills:

All attendees should be Java Developers with knowledge of J2EE

Participants of this course must have previously completed the following FINEOS training modules:

FTT-C-001 - Introduction to FINEOS for Technical Training

FTB-F-014 – Document Manager Overview

FTB-F-006 – FINEOS Configuration Studio

FTT-CI-002 – FINEOS Data Model

Summary Of Course Contents

Module	Description
Introduction	<ul style="list-style-type: none"> ▪ An introduction to FINEOS EForms including defining EForms, uses for EForms, EForm capabilities and how FINEOS EForms integrate with other FINEOS components.
Configuration	<ul style="list-style-type: none"> • A Step by step guide on how to configure a FINEOS EForm, including screenshots to illustrate configuration.
Data Model	<ul style="list-style-type: none"> • A snap shot of the EForm Business Object Entity in the FINEOS Data model including a snap shot of the Class diagram

Data Storage	<ul style="list-style-type: none"> An overview of the FINEOS EForm data storage.
Creating a FINEOS EForm	<ul style="list-style-type: none"> Creation of the Eform jsp, overview of the ExtraData widget and a brief analysis of the FINEOS 'Look and Feel'.
FINEOS EForm Tags	<ul style="list-style-type: none"> An introduction to the FINEOS Tag library, types of Tags and standard imports

Formats & Duration

Delivery	Tutor-Led Practical	Duration	1 Day
Description			
<p>The desired effect for participants on completion of this course is an acquisition of skills i.e. to 'KNOW' how to use a particular area of the FINEOS product. Participants are led through practical exercises relevant to the particular skills area directed and assisted by the tutor.</p>
